ISSCT
Molecular Biology Section
WEBINAR

25 June 2026 from 11 AM to 1 PM GMT

THEME Molecular and Biotechnology Approaches Shaping the Future of Sugarcane

PROGRAMME
Welcome and speaker's introduction: 10 min

PRESENTATIONS
- Sweet science: Unlocking sugarcane genetic potential in South Africa: 20 min
Sandy Snyman – SASRI
Q&A: 5 min
- Understanding and improving genetic resistance to orange rust in sugarcane: : 20 min
Jordan Dijoux – eRcane
Q&A: 5 min
- New traits at CTC: Progress towards doubling sugarcane yield by 2040: 20 min
Brennan Hyden – CTC
Q&A: 5 min

Q&A Session / Panel discussion 20 min

Total duration of the session will be around 2 hours

Language: The Webinar will be conducted in English

MORE INFO

PLEASE CONTACT THE:

Facilitators / Organizers:
Dr. John Riascos, CENICAÑA, Colombia,
Chair ISSCT Molecular Biology Section
Dr. Nathalie Piperidis SRA, Australia
Dr. Olivier Garsmeur, CIRAD, France
Dr. Francisca Perera, EEAOC, Argentina
Dr. Jianping Wang, University of Florida, USA.
